Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-19, 21, 22, and 24-26, drawn to a water treatment method.

Group II, claim 20, drawn to a use of treated water.

Group III, claim 23, drawn to a use of magnesium hydroxide.

Group IV, claims 27-34, drawn to an apparatus.

Group V, claim 35, drawn to a process for treating saline process water.

Group VI, claim 36, drawn to a process for manufacturing PCC compounds.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, a special technical feature which these claims share does not define a contribution over the prior art. For example, the claims of Groups I-VI share a precipitated calcium carbonate or magnesium hydroxide as the special technical feature, which is considered to lack novelty or an inventive step in view of Tabata et al. (see col. 1 line 16 through col. 2 line 40).

A telephone call was made to Raymond Smith on 8/21/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
